

Exceeding expectations

- Count reliably up to 1000 in 2s, 5s and 10s
- Count on and back in multiples of 4, 8, 25, 50 and 100 from any given number to beyond 1000
- Add and subtract fractions with a common denominator

- Apply knowledge of number up to 100 to solve a one-step problem involving a addition, subtraction and simple multiplication and division
- Add and subtract two 2-digit and numbers to 100
- Use an appropriate strategy to add and subtract numbers that move between and through 100, for example, $97 + 7$
- Know about right angles and where they can be seen in the environment
- Tell time to 5 minute intervals in both analogue and digital and relate one to the other
- Measure, compare, add and subtract using common metric measures

Lammack Primary School

End of Year Expectations Year 2 Mathematics

This booklet has been produced as an aid to help you and your child with the skills that are required this year; these are the expectations for the end of year. In class, we will be working towards these goals throughout the year and would appreciate your help and support in doing this. These skills would be useful to refer to when supporting your child with their homework. Thank you.

Expectations: Measurement, Geometry and Statistics

- Choose and use appropriate standard units to estimate length/ height/ temperature and capacity
- Tell and write the time to 5 minute intervals 
- Recognise and use the symbols £ and p when solving problems involving addition and subtraction of money
- Describe the properties of 2D and 3D shapes to include:

- Interpret and construct pictograms, tally charts, block diagrams and simple tables

Colour	Number of Smarties	Frequency
Green		7
Orange		8
Blue		5
Pink		6
Yellow		11
Red		8
Purple		7
Brown		3
Key = 2 smarties		

Expectations: number

- Read and write numbers to at least 100 in numerals and words
- Recognise odd and even numbers to 100
- Count in steps of 2, 3 and 5 from 0
- Recognise place value of each digit in 2-digit numbers
- Compare and order numbers from 0 to 100 using the >; <; and = signs
- Name the fractions $\frac{1}{3}$; $\frac{1}{4}$; $\frac{1}{2}$ and $\frac{3}{4}$ and find fractional values of shapes; lengths and numbers
- Recall and use multiplication and division facts for the 2, 5 and 10x multiplication tables
- Add and subtract: two 1-digit; 2-digit and a 1 digit; 2-digit and 10s; two 2-digit and three 1-digit numbers
- Solve problems with addition and subtraction
- Understand commutativity in relation to addition, subtraction, multiplication and division

Examples:

You can swap when you add: $6 + 3 = 3 + 6$

You can swap when you multiply: $2 \times 4 = 4 \times 2$
